Announcement.

We are authorized to announce Robert L. Young of Buchanan county, as a Democratic candidate for Congress from the Fourth district subject to the primary election to be held August 8, 1916.

Attorney General Barker has reversed his former opinion with reference to the apportionment of the school moneys by the state. For a long time it has been customary to apportion to the public schools a certain percent of the total revenue of the state but in a former opinion the attorney general held that this could apply only to the general revenues and should not include the beer inspection and other special taxes. Auditor Gordon thereupon certified the apportionment amounting to more than \$300,000 less than last year. This of course raised a protest and State Superintendent of Schools Howard Gass, in order to bring the matter to a test, brought a mandamus proceeding in the Supreme Court to compel Gordon to apportion the full amount and usual per centage. The auditor has not yet determined whether he will act in accordance with the attorney general's last opinion. If he does, it will mean an increase over the original apportionment of \$514,503.

Return to Kansas City.

Mrs. Joe Brown and children of Kansas City returned to their home yesterday morning after a two weeks visit in this city with her parents, Mr. and Mrs. Fred Hastings.

WAS A COLD MONTH

AUGUST 1915 RECORD AS COOLEST
IN A DECADE.

HIGHEST HAS BEEN 91

Temperature Arose 90 Degrees But Once—Fell to 59 Yesterday—Comparison with Last Year.

That the temperature for August has been much below the average, and the skies far less clear than usual is shown in records maintained by J. R. Brink, local weather observer. The coldest for the month was registered Monday morning of this week, when the thermometer stood at 39 degrees and resulted in a slight frost in the lowlands, but with no damaging effect.

In fact the temperature for Monday morning was the lowest for any August day in the twenty years the records have been kept here by Mr. Brink. Just as proof of this, Mr. Brink submits these record temperatures below 50 degrees on August days:

	Min. Tem.
August 27, 1896.	48
August 20, 1897.	46
August 1, 1898.	50
August 11, 1902.	47

August 27, 1906.	45
August 26, 1910.	45
August 29, 1901.	49
August 20, 1915.	39

Hottest This August, 91.

In contrast to that Mr. Brink also submits these figures to show how often it has been above 100 degrees on August days here:

225 TEACHERS OF NODAWAY COUNTY ATTEND FINAL SESSION

PROGRAM IS CHANGED

Failure of Speakers to Arrive Causes Rearrangement—Each Afternoon Meeting for Pub.

Two hundred and twenty-five public school teachers of Nodaway county attended the last day's session of the annual teachers' conference, held at the Central school building here yesterday and today. A few came from surrounding counties. Owing to the failure of some of the speakers to arrive on time yesterday and today, however, the program was changed considerably today.

The meeting today was begun with a talk by Miss Naomi Horn on the course of study for pupils of class B. It was followed by an address by Mrs. J. Z. Campbell of St. Louis on drawing.

Prof. J. L. Nierman, superintendent of the Hopkins school, then spoke relative to the boys' state fair school at Sedalia and the exhibits there. Mr. Nierman urged that the teachers still an interest in the boy pupils next year, and told of its advantages to them.

Mrs. Cora Early, superintendent of schools of Worth county, then spoke relative to the alterations in textbooks and courses of study for the school term of 1915 and 1916.

Announce Next Term Teachers. Prof. W. P. Johnson of St. Louis then gave an address and demonstrations of the muscular movement of writing, as was recently adopted for the public schools of Nodaway county for next term.

Prof. George W. Somerville, principal of the schools of Clearmont, also spoke relative to the course of study for class A pupils today. C. C. Vickery conducted a study of the reading circle books for next term.

President Ira Richardson of the State Normal school, who returned at noon today from his vacation, also spoke briefly this afternoon to the teachers. Eugene Bird, teacher at Unity school, also spoke. W. A. Powers, scheduled for an address, could not be present.

The closing address this afternoon was made by County Superintendent Bert Cooper, followed by an announcement of the teachers selected for next year, as mentioned in The Democrat-Forum yesterday.

The meeting closed about 2 o'clock this afternoon, instead of 3 o'clock, as was originally planned, in order to allow the teachers an opportunity to attend the races and other attractions at the county fair this afternoon.

CRIPPLED TRAVELER INJURED.

A. L. Spencer of Westboro Hurt While Boarding Train at Burlington Junction.

A. L. Spencer, a jeweler, living at Westboro, was hurt Sunday night while boarding the train at Burlington Junction.

Mr. Spencer is slightly crippled and wears a brace to protect his leg. As he boarded the train this brace caught against the steps of the car and the leg broke his leg at the knee. He was hurried to Maryville and his wounds dressed and he was sent to his destination on a later train.

LIVESTOCK MARKETS SLUMP

Cattle, Hogs and Sheep Fell 10 to 25 Cents Lower in Kansas City—Improves.

Kansas City, August 30.—The cattle market was slow last week, with a total decline of 15 to 25 cents. There was some signs of improvement after Wednesday, killers running short of supplies, as receipts for the week were moderate. Today the run is 24,000 head, the largest of the year, and of reasonable volume.

The demand shows equal expansion on most kinds, corn-fed cattle selling around steady, including yearlings and heifers, and stock cattle strong and active, many country buyers here. Choice feeders would sell steady, few here, medium feeders, and medium grass killers 10 to 15c lower, cows 10c lower.

Prime corn-fed steers are worth \$9.40 to \$9.85, medium fed natives \$8.25 to \$9.25, Kansas grass steers weighing 1,200 to 1,300 pounds mostly at \$7.75 to \$8.35, choice wintered steers up to \$8.75, light steers, \$7.20 to \$7.60. Plain feeders are selling at \$6.75 to \$7.65, but choice ones would bring \$8 to \$8.35.

In the quarantine division 66 cars arrived, and sold actively at 10c lower prices, the supply largely mixed stock, few steers at \$7.10, light steers \$5.75 to \$6.50, cows, \$5.00 to \$5.50, veal calves up to \$10.25.

At this season there is always a great latent demand for cattle which comes to the surface with the first big run of cattle, a fact which prevents any material decline. This demand was evident today to sellers' benefit.

In addition, a new Chicago order buying concern, which does a big business buying feeders and stockers for states east, opened offices here today, and injected considerable life to the trade.

Hogs sold 5 to 10c lower, receipts 8,500 head. Top price was \$7.65, bulk of sales \$6.80 to \$7.60. Receipts included several shipments of heavy hogs from north central Nebraska, from shippers who say they are getting 40 to 50 cents more here than in Omaha, mostly at \$6.90 to \$7.20.

Demand for fresh pork and bacon is extraordinary, and this trade was sufficient last week, in conjunction with light receipts, to advance prices 50 to 60 cents.

Sheep and lambs sold weak to 25c lower today, receipts 18,000. Some medium Arizona fat lambs sold at \$8.60 early, almost a steady price, and best lambs sold around \$9, considerably lower, fat yearlings \$7. Feeders held about steady, feeding lambs around \$8.20, breeding ewes up to \$6.75, feeding ewes, good for one more lamb, at \$5 to \$5.50. There will be plenty of feeding and breeding stock here this week.

EAT FRIED FOWL TOMORROW

Local Poultry Breeders Will Partake of Toothsome Delicacy on Fair Grounds—At Sheridan, Too.

Tomorrow is Fried Chicken day in Missouri, and this includes Nodaway county. The Northwest Missouri Poultry association, with headquarters here, has arranged for those interested in the poultry industry in Nodaway county, to appear at the fair grounds tomorrow noon to partake of fried fowl, along with the local members of the association.

The pluckers will also spend some time following the luncheon in a view of the poultry exhibits at the fair and of the general fair displays in floral hall and elsewhere.

Sheridan also is planning a Fried Chicken day tomorrow. The Boosters there have arranged to have Nels Darling give a lecture to them on that occasion.

To Have Sunday School Day.

Chillicothe is to have a go-to-Sunday-school day. The date decided on is Sunday, September 12. Last night in the basement of the First Baptist church a meeting was held to discuss plans for this day.

And They Went A-fishing.

The Rev. G. S. Cox and George Heron went fishing in the 102 river yesterday afternoon. Mr. Cox and family had fish for supper.

UNITED STATES CASH NOW SETTING WORLD'S STANDARD

Eagle is the Ruler as Exchange Falls to Lowest Level.

New York.—The American dollar is ruling the world today with an iron grip. Pounds sterling, francs, lire, and virtually all foreign exchange have gone down to new depths in a torrent of bills that poured into the exchange markets from American manufacturers seeking pay for the big war contracts of munitions and other supplies purchased here by the warring nations of Europe.

Coincident with the startling decline in exchange rates comes the assertion from an unimpeachable source that every contract made by the American manufacturers for supplies sent abroad called for payment in American dollars and not English pounds sterling, which heretofore have been the standard of finance the world over. The immense losses, therefore, due to the decline in foreign exchange rates will be borne by the foreign buyers and will not be sustained by the American manufacturers.

What to do to remedy the situation engages the attention of bankers with international connections. It was decided to do nothing, chiefly because the remedy lay across the ocean with the foreign buyers.

It was generally believed that the present abnormal situation would not be permitted to continue long. The obvious remedy seemed to be to sell American securities held abroad. Establishment here of a big foreign credit, estimated conservatively at \$500,000,000, was thought to be absolutely necessary if exchange rates are to be restored to anything like normal figures.

The amount of war contracts on which full or nearly full payments will be due on or before Oct. 1 approximates \$400,000,000 to \$500,000,000. This is in addition to the huge total of more than \$1,000,000,000 owed by Europe to the United States at the close of the fiscal year, June 30.

An optimistic feature of the situation was the general belief that a second large shipment of gold is on its way to New York.

FOREST FIRES FEARED IN THE NORTHWEST

Dry Weather For Months Has Made Conditions Dangerous.

Washington.—Extraordinary precautions are being taken by the United States forest service to prevent the spread of forest fires in the national reservations, especially in those of the northwestern states. There was such little snow last winter, and the rainfall has been below normal in the mountainous countries, that the woods are dry as tinder. Field agents and forest rangers have reported to the service here that not in years have conditions been so dangerous.

August, September and October are the most dreaded months, and it is in this comparatively short space of ninety days that millions of dollars in trees in the national forests are ready to flame into infernos when a lightning flash or a spark from a careless camper's fire furnishes the excuse.

Forest service officials, while admitting their anxiety, said they were better prepared this year than ever before. During the past twelve months hundreds of miles of trails have been built through the forests, and the telephone system has been greatly increased and improved. The service also has adopted its new fire fighting equipment, which takes the place of individual men.

NO CHILDREN IN THE MINES.

California Eliminates Children Under Sixteen From Mines and Quarries.

Among the new limits established by the California child labor law of 1915 is a sixteen year limit for mines and quarries. California has mining products valued at more than \$23,000,000, according to the 1910 census, but she has never before set an age limit for the children who might be employed in their production.

Now that a sixteen year limit has been adopted no fourteen or fifteen year old trapper boys will be found among the victims of an explosion, as was the case in West Virginia last year, nor will their thoughtlessness be the cause of disasters in which others are killed, as it sometimes is where boys under sixteen are permitted to work in mines.

Mining has the highest fatal accident rate of any industry, but quarrying is not far behind. A signal boy was crushed to death by a falling stone in

Photo by National Child Labor Committee. BOYS WHO REMOVE SLATE FROM COAL IN THE BERKELEY.

a Maine quarry last fall. The occupation of signal boy is not generally supposed to be dangerous, but it is evident from this that any occupation in a quarry is unsafe for young boys and that a sixteen year limit is imperative. A number of mining states having both mines and quarries have adopted a sixteen year limit for mines only, forgetting that the dangers from falling stone and blasting make the presence of young boys in quarries a risk to be avoided.

California's action is regarded as particularly significant by the National Child Labor Committee in view of the "law of recurrence" which Dr. Felix Adler spoke about at the Eleventh Annual Conference on Child Labor. Dr. Adler said that the evils of child labor had followed industrial development from England to New York and Massachusetts, from there to the south and from the south would go to the west unless the west prevented it by enacting child labor laws in advance. Child labor in the mines will not "recur" in California.

FORESTALLING CHILD LABOR.

By FELIX ADLER.

The question is sometimes asked: "Why have a National Child Labor Committee? Why not have state committees and let these co-operate?" One sufficient answer to this is that the appearance of child labor in those states in which there is as yet little or no manufacturing must be forestalled, and a national committee is needed to this end. Anti-child labor laws must pre-empt the ground before a greedy industrialism can stretch forth its hands to grasp the child. The law of periodicity, the law of recurrence, that has hitherto obtained in the matter of child labor must be defeated. England began, Massachusetts, Pennsylvania, New York followed suit. The same inconceivable outrages on human feelings repeat themselves again and again. Whenever a predominantly agricultural community develops into an industrial stage the horrors exposed by Lord Shaftesbury tend to recur. Mankind does not readily learn by experience. The warning lessons of the past are often writ in water. Thus the industrial states of the north simply stepped into the foul footsteps of early English capitalism, and the south, as soon as it became industrial, hastened to repeat the same fateful story. The great states of the Pacific and the west must thwart that horrible law and make it impossible that the same conditions should there grow up. That is the one main object of a national committee.

THE CHILDREN'S CRY.

I said: "I am poor this year, and the war is hard. I cannot give to the things I love to add. So this must go, and this, in the great discord." And the children must suffer, too, I am much afraid."

But I didn't know how they cry in the night and pinch at your shirt and moan, how they cry with the color of your heart's delight And the form your dead heart wore.

There are boys that work all night in the crowded dark. There are girls who spin all day at the whirling wheels. And how shall I tame my dead with my broken trust When the "inasmuch as ye did it not" reveals?

I couldn't hear their cry in the night. The clutch of their little hands. I must do my best with the soldier's wife To keep her from hands.

RESCUE PATIENT IN CHIMNEY

Sick Man Saved After Desperate Struggle by Hospital Attendants.

Philadelphia.—Wedged halfway down the chimney of the four story building used as a men's medical ward, Bene dict Strum, a patient in the Philadelphia hospital, narrowly escaped suffocation while hospital attendants labored desperately to extricate him from the perilous position.

What prompted Strum to get in the chimney is a mystery to the hospital physicians unless his mind became temporarily unbalanced and he attempted to escape. Strum went on the roof of the medical ward unobserved and climbed into the chimney. Soon afterward other patients in the ward reported to the attendants that they heard cries coming from the roof.

Armed with picks, some of the attendants began to open the chimney close to where the imprisoned man was suspended, while others hurried to the roof and attempted to reach him by stretching a rope down the mouth of the flue. Just at the time when the workers below had almost succeeded in making an opening into the chimney those on the roof managed to get a rope to Strum.

He succeeded in getting both arms free and after he had got a good grasp on the rope was hauled to the top.

AMERICANS IN CANADIAN ARMY

Two Thousand Serving, Says General Hughes—More Than 100 Slain.

London.—There are no fewer than 2,000 Americans in the ranks of the Canadian military contingent, said Major-General Sam Hughes, Canadian minister of militia, at a meeting of Americans held here.

"I have already written letters of gratitude and sympathy," said General Hughes, "to mothers of more than 100 American boys who have fallen while fighting in Flanders alongside Canadian comrades. More than 2,000 are enlisted, and we could have many more if we wished. Any number of West Pointers offered their services as officers, and some are now with us."

METEOR'S DASH WAS A BRILLIANT EXPLOIT

Germans, Hemmed In, Escaped on a Horse Merchantman.

Berlin.—The story of a naval exploit which matches in daring the spectacular ravages of the Emden, the Prince Eitel and other German commerce destroyers was told when the details of the sinking of the German auxiliary Meteor were received.

After an adventurous dash in the North sea the captain of the Meteor, hemmed in by enemy patrol boats, succeeded in escaping with his crew and British prisoners aboard a commandeered merchant craft after he blew up his own vessel.

"According to private reports," says a news agency, "the Meteor, a converted merchant steamer, succeeded in breaking through the lines of British patrol ships and traveling to the Orkney islands, 550 miles from her base. She laid a large number of mines and destroyed British merchant ships."

"Finally she encountered the British cruiser Ramsey, which she sank after a splendid maneuver. The captain of the Meteor, whose crew consisted of about twenty-five men, saved and captured forty-three men from the Ramsey. About sixty others were drowned. "British battle cruisers, notified by wireless, pursued the Meteor. After the Meteor had burned the Danish merchantman Jason, with a contraband cargo aboard, the little German craft, facing four British cruisers, stopped a Norwegian steamer, transferred the captured British contraband crew and also put the Danish sailors on board. This boat escaped from her pursuers with the captured Englishmen. The Meteor was sunk by exploding her mines."

HER HAIR SAVED GIRL'S LIFE.

Acts as Cushion and Prevents Fractured Skull in Auto Accident.

Philadelphia.—Thrown from her brother's automobile when it was struck by another machine, the driver of which was endeavoring to avoid hitting a child, Miss Ella Toile, twenty years old, received severe lacerations of the scalp and probably internal injuries.

Physicians say that it was only her wealth of hair that saved her from a fractured skull. The other car was driven by Gustav Eberle of Germantown.

Rewards Faithful Horse.

Riverhead, N. Y.—Dr. George P. Griffing of Greenpoint, Brooklyn, and South Jamesport, N. Y., created a trust fund of \$5,000 in his will, filed for probate here, with the income from which his "faithful old horse, Frank," is to be maintained in comfort for the rest of his life.

Device Against Torpedoes.

Paris.—A device, invented by the Italian engineer, Quarini, which makes it possible to drive torpedoes out of their course and explode them, has succeeded tests, says a dispatch from Rome, and arrangements are being made to supply the device to the allied fleets.

MRS. TRULLINGER IS WELL AND HAPPY

Mrs. J. B. Trullinger of Norborne, Mo., was ill for months with derangements of the digestive tract. She suffered terrible pain and was seldom able to be about.

She took Mayr's Wonderful Remedy with results that most happily surprised her and astonished her physician.

Mrs. Trullinger lives on rural route 1, out of Norborne, and leads an active country life. She writes:

"I take great pleasure in telling you what Mayr's Wonderful Remedy has done for me. When I wrote you last March I was hardly able to be up at all. I endured awful suffering. I would get so bad I would become unconscious, and the nauseating spells I had would leave me as weak as if I had a long spell of sickness nearly as bad as typhoid."

"Words cannot express the appreciation I have for your medicine. I am now able to work all day long. All this summer and fall I have felt just fine, gaining in strength and flesh."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

CROWDS SEE FAIR FETES LAST NIGHT

FIREWORKS, FREE ACTS APPROVED BY AUDIENCE.

COOL WEATHER KEPT BACK A BIG TURN-OUT

Chilling Breeze Brought Out Overcasts—Pyrotechnical Display Is Obscured From Part of Grand Stand.

Although it was a rather raw, chilly breeze which gently blew across the fair grounds, the fair program last night was witnessed by a fairly large crowd of persons, most of them from Maryville. The free acts were splendid as the hundreds who witnessed them, indicated by generous applause.

The pyrotechnical display by Fearless Blondin is up to its standard again this year, it seems, but on account of its location this week, can not be observed very well from the grand stand. Besides being obstructed in view by the judge's racing tower the refreshment stand and free-act stand, the fireworks display was located clear over to the east side of the grounds, making it hard to clearly observe all the features.

It was placed farther south and east this year for the purpose of permitting those in the midway to secure a better view, but it is at the hindrance of those in the grand stand.

The races yesterday afternoon were not attended by a very large crowd, but the one this afternoon are being witnessed by a much larger assemblage. The speed course is not as good as it was last year, but is much better than many speedways, it is said.

The big attraction tonight will be the horse show, while the aviation acts of Capt. J. H. Worden and the balloon ascensions by J. C. Wright, also prove quite attractive to the fair crowd.

The midway is fairly well filled on both sides now by stands of all descriptions while the display of farm products and textiles in the Floral hall, grow from hour to hour. The final entries will probably be placed late this afternoon, when the judging will be begun.

Much fine bred live stock in the way of show horses, cattle, and hogs also is now on the grounds for display.

U. S. Submarine F-4 Fails to Reveal Bodies of 18 Drowned Men—Cause Not Announced.

Special to The Democrat-Forum.

Honolulu, August 31.—The United States submarine F-4, which was raised yesterday from a watery grave of several months, was drydocked here today and fully exposed to view. An investigation shows a large hole blown through which officers entered and examined all apartments.

No trace of the bodies of the sixteen men who went down with the submarine has been found. It is believed they are buried in the sand and debris which chokes the interior of the plunger.

The officers who investigated refused to say whether it has been decided what caused the accident. It will require two days to clear out the debris.

Will Mean More for the Schools.

The schools of Nodaway county will receive about \$16,500 from the state this year, according to the apportionment made at Jefferson City. According to a former decision of Attorney General Barker the school fund of the state was reduced over \$500,000, but Mr. Barker reversed that decision yesterday, and Nodaway county will now receive over \$3,000 more.

2 TOWNSHIPS MAKE DISPLAY

Polk and Hughes Offer Prize Agricultural Products at Fair—Weather Stopped Others.

There will be at least two mighty good township displays of agricultural products at the county fair here this week. They will be from Polk and Hughes townships. They are being arranged today but the final entries probably will not be entirely in before tomorrow, according to W. R. Jackson, secretary of the commercial club, leaders in the movement.

It was not lack of interest in the movement that caused other townships to give up trying to make an exhibit here, Mr. Jackson said. But instead it is all blamed on the unusual weather that has hovered over Nodaway county all summer and even late last spring. The rains destroyed many fine exhibits and then when the weather did become agreeable, the farmers were too busy to attend to picking out exhibit products.

The Polk township display is in charge of Ernest Wray, Ed. Pannox and L. M. Strader, while A. B. Hillis and several others offered several good products for the exhibit.

The Hughes township display has been gathered under the direction of William Gex, while W. B. Gex and John Gex and C. H. Talbot and several others of the southwest township contributed products.

It is believed that a fairly creditable county showing can be gathered from the two township displays and the individual exhibits in Floral hall. The county exhibits will be in charge of Prof. B. A. Kinnaird, who will take it to the state fair at Sedalia next fall.

DR. CHRISTY WILL LEAVE

Methodist District Superintendent to Take New Charge After October Meeting of Conference.

Dr. W. B. Christy, superintendent of the Maryville district of the Methodist conference, will sever his work with this district at the meeting of the conference at Cameron on October 7.

Dr. Christy has concluded the six years service which is allotted by the conference for each district superintendent. Where he will be sent, or his plans for the future will be decided at the conference.

Dr. Christy came to the Maryville district from Brookfield where he had served the six years superintendency. Miss Edith Christy, Dr. Christy's daughter, left last night accompanied by her mother, for Scotland, S. D., where she has a position in the Scotland public school. Mrs. Christy will visit with her daughter until the meeting of the conference.

HUBBARD LEAVES SOUTH M. E. CHURCH

PRESENT BUCHANAN STREET PASTOR WILL BE MOVED NEXT WEEK

CHURCH ADDS 15 IN YEAR'S WORK HERE

Came Here After Four Years at Monroe City—Expects Return of Several County Ministers.

The Rev. John H. Hubbard, who has been pastor of the Buchanan Street Methodist church here the past year, will be transferred to some other pastorate at the close of the annual Missouri conference of the South Methodist church to be held at Chillicothe for six days, beginning tomorrow. Who will succeed Mr. Hubbard or where Mr. Hubbard will go, is not known.

The announcement of Mr. Hubbard's successor will not be made until Monday, September 6, when the conference closes. Mr. Hubbard already has notified the Rev. C. B. Duncan of St. Joseph, superintendent of this district, of his desire to be transferred to some other pastorate, not through dissatisfaction here, but because of the opinion held by ministers of South Methodist churches, that a transfer should be made often.

Church Membership Grows.

Mr. Hubbard came here with his family last September from Monroe City, where he held a pastorate for four years. Since coming here the church has had a net increase of fourteen members, resulting from the addition of twenty-nine new members, and the removal of fifteen from the church. Some of this net increase resulted from a two-week revival held last winter, but most of it resulted through the efforts of Mr. Hubbard.

There also will probably be several other changes in Nodaway county as a result of the conference at Chillicothe this week, according to Mr. Hubbard. The South Methodist pastors in the county are: George W. Ralston, who holds the pastorate of Barnard and Wilcox; Robert T. Holliday of Elmo and North Grove, M. C. DeWitt of Skidmore, New Hope and Centenary; L. M. Kirby of Guilford and Bethel; Lee R. Sparks of Ravenwood and Monroe Chapel.

Mr. Holliday has held the Elmo and North Grove pastorate for three years and will probably be removed this time, Mr. Hubbard said, while Mr. DeWitt and Mr. Ralston are expected to remain. All South Methodist pastors in Nodaway county, except Mr. Holliday, were appointed to the present charge last fall.

Superintendent May Remain.

Mr. Duncan, district superintendent, also was newly appointed last fall. He will probably be returned as superintendent.

Mr. Hubbard will probably leave tonight for Chillicothe to attend the conference. He had expected to go this morning but on account of the illness of Mrs. Hubbard, caused by an infected eye, could not leave. Clarence Seals, superintendent of the Buchanan Street Sunday school, and a delegate to the conference from this district, will probably go to Chillicothe today too. The other South Methodist ministers of the county may attend. The Rev. C. O. Ransford of Ravenwood, is conference secretary.

COLD WAVE MOVES EASTWARD

Light Frosts Are Reported from Texas to Michigan, But Temperature Slowly Rises.

Special to The Democrat-Forum.
Chicago, Ill., August 31.—The cold wave is moving eastward, but record low temperatures were reported last night from Michigan to northern Texas. At many points it was below 40 degrees, with light frosts resulting. The sun is warming things up today. Memphis reports a low temperature of 55 degrees and frost fell in eastern Arkansas.

Manhattan, Kan., reports forty degrees temperature but no frost.

BOTH WANT U. S. FRIENDSHIP

England and Germany Modify Orders—Will Not Change Protests to British, However.

Special to The Democrat-Forum.

Washington, August 31.—Secretary of State Lansing repudiates the rumors that Admiral Von Tirpitz was constructing a complete understanding between Germany and the United States, because opposed to the punishment of submarine commanders.

This government believes all German officials are in accord with the proposition that submarine activities should be modified. Both England and Germany are now bidding for the friendship of the United States, but England's concessions relative to shipments will not prevent the sending of a sharp protest against declaring cotton contraband.

General Scott Tells Secretary Lansing That Mexican Leader Will Help to Get Peace.

Special to The Democrat-Forum.

Washington, August 31.—General Winfield Scott has informed Secretary of State Lansing that General Villa, Mexican leader, has positively promised to support any plan the United States decides on as a restoration of constitutional Mexico.

He agrees to eliminate himself entirely in an effort to bring about a stable government in Mexico, General Scott reports.

Washington, August 31.—General Scott told the president this afternoon about his trip to the border and El Paso. He spoke of the results of his conference with Villa. The interview with the president was arranged after General Scott had told Secretary Lansing the details, some of which had been given out earlier.

RAISE GASOLINE PRICES.

Independent Producers Boost It One Cent in Kansas—Change Necessary.

Special to The Democrat-Forum.

Kansas City, August 31.—The retail prices of independent gasoline here and throughout Kansas is to be increased one cent a gallon tomorrow, the independent producers decided at a meeting here.

It was decided that the increase is necessary because of inability to continue business at a sales price of 8.8-100 cents per gallon. The Standard Oil company is not expected to make any increase.

BRITISH END STRIKE.

After a Conference With the Miners, the Cabinet Has Granted All the Demands.

Special to The Democrat-Forum.

London, Aug. 31.—The Welsh coal miners' strike was settled this afternoon. The men's demands have all been granted. The settlement came after a meeting with the cabinet and the strike leaders.

London, August 31.—It is reported from high authority that on account of the strike of the Welsh miners the British cabinet is seriously considering the placing of mines under government control.

A further conference is being held today at Cardiff. It is unofficially reported that the government intends to settle the trouble definitely very soon. Cardiff, Wales, August 31.—The Miners' Federation has adopted a resolution advising the men to continue work, pending a decision at the conference of the cabinet tomorrow.

Announcement.

We are authorized to announce Robert L. Young of Buchanan county, as a Democratic candidate for Congress from the Fourth district subject to the primary election to be held August 8, 1915.

Attorney General Barker has reversed his former opinion with reference to the apportionment of the school moneys by the state. For a long time it has been customary to apportion to the public schools a certain percent of the total revenue of the state but in a former opinion the attorney general held that this could apply only to the general revenues and should not include the beer inspection and other special taxes. Auditor Gordon thereupon certified the apportionment amounting to more than \$300,000 less than last year. This of course raised a protest and State Superintendent of Schools Howard Gass, in order to bring the matter to a test, brought a mandamus proceeding in the Supreme Court to compel Gordon to apportion the full amount and usual per centage. The auditor has not yet determined whether he will act in accordance with the attorney general's last opinion. If he does, it will mean an increase over the original apportionment of \$614,503.

WAS A COLD MONTH

AUGUST 1915 RECORD AS COOLEST IN A DECADE.

HIGHEST HAS BEEN 91

Temperature Arose 90 Degrees But Once—Fell to 39 Yesterday—Comparison with Last Year.

That the temperature for August has been much below the average, and the skies far less clear than usual is shown in records maintained by J. R. Brink, local weather observer. The coldest for the month was registered Monday morning of this week, when the thermometer stood at 39 degrees and resulted in a light frost in the lowlands, but with no damaging effect.

In fact the temperature for Monday morning was the lowest for any August day in the twenty years the records have been kept here by Mr. Brink. Just as proof of this, Mr. Brink submits these record temperatures below 50 degrees on August days:

Date	Min. Temp.
August 27, 1896	48
August 20, 1897	46
August 1, 1898	50
August 11, 1902	47
August 23, 1904	50
August 27, 1906	45
August 26, 1910	45
August 29, 1911	49
August 30, 1915	39

Hottest This August, 91.

In contrast to that Mr. Brink also submits these figures to show how often it has been above 100 degrees on August days here:

Date	Max. Temp.
August 10, 1894	100
August 2, 1897	101
August 21, 1898	101
August 20, 1900	101
August 1, 1901	103
August 12, 1909	100
August 22, 1910	100
August 16, 1911	101
August 16, 1912	101
August 5, 1913	108
August 18, 1914	102

It has never been higher than 90 degrees the past month except on one day, August 16, when it went to 91 degrees, according to Mr. Brink.

A Comparison With August, 1914.
The maximum and minimum temperatures for each day of August this year and of August, 1914, an unusually warm August, are given as follows by Mr. Brink:

SENATOR MORAN DEAD.

Well Known St. Joseph Orator Passed Away Monday Afternoon—Admitted to the Bar Here.

Senator M. G. Moran of St. Joseph died Monday afternoon at 5:15 o'clock following a day's illness. The cause of his death was acute bright's disease.

Mr. Moran was born in Berlin, Wis., January 5, 1858 and moved with his parents to Nodaway county in 1869. He was educated in Georgetown university, where he studied for the priesthood, but never took orders. He taught school in this county for a short time, and then studied law in the office of Judge Edwards. He was admitted to the bar here when he was 19 years old.

As a young man he defended the Talbott brothers in Maryville, when they were accused of the murder of their father at Arke. Moran also defended Hec Ranco, who was tried a number of years ago for the murder of Mrs. Kate Baumbli.

Senator Moran was well known in Maryville.

TUTORS END MEET

225 TEACHERS OF NODAWAY COUNTY ATTEND FINAL SESSION

PROGRAM IS CHANGED

Failure of Speakers to Arrive Causes Rearrangement—Rush Afternoon Meeting for Fair.

Two hundred and twenty-five public school teachers of Nodaway county attended the last day's session of the annual teachers' conference, held at the Central school building here yesterday and today. A few came from surrounding counties. Owing to the failure of some of the speakers to arrive on time yesterday and today, however, the program was changed considerably today.

The meeting today was begun with a talk by Miss Naomi Horn on the course of study for pupils of class B. It was followed by an address by Mrs. J. Z. Campbell of St. Louis on drawing.

Prof. J. L. Nierman, superintendent of the Hopkins school, then spoke relative to the boys' state fair school at Sedalia and the exhibits there. Mr. Nierman urged that the teachers instill an interest in the boy pupils next term for the state fair school next year, and told of its advantages to them.

Mrs. Cora Early, superintendent of schools of Worth county, then spoke relative to the alterations in textbooks and courses of study for the school term of 1915 and 1916.

Announce Next Term Teachers.
Prof. W. P. Johnson of St. Louis then gave an address and demonstrations of the muscular movement of writing, as was recently adopted for the public schools of Nodaway county for next term.

Prof. George W. Somerville, principal of the schools of Clearmont, also spoke relative to the course of study for class A pupils today. C. C. Vickery conducted a study of the reading circle books for next term.

President Ira Richardson of the State Normal school, who returned at noon today from his vacation, also spoke briefly this afternoon to the teachers. Eugene Bird, teacher at Unity school, also spoke. W. A. Powers, scheduled for an address, could not be present.

The closing address this afternoon was made by County Superintendent Bert Cooper, followed by an announcement of the teachers selected for next term, as mentioned in The Democrat-Forum yesterday.

The meeting closed about 2 o'clock this afternoon, instead of 3 o'clock, as was originally planned, in order to allow the teachers an opportunity to attend the races and other attractions at the county fair this afternoon.

FIGHT DISSOLVES CO-OPERATION.

John Potts Fined \$2 and Costs of \$20 at Guilford for Assaulting Brother.

John Potts pleaded guilty to a charge of common assault before Justice M. C. Noland at Guilford yesterday afternoon and was fined \$2 and costs of about \$20. He was charged with having struck Dr. Norris Potts, his brother. The partnership of the two also was dissolved yesterday at the instance of Prosecuting Attorney W. G. Sawyers, on account of the fight.

John Potts acted as driver for his brother, who is a physician. It was over this arrangement that caused the fight.

Got Into Fight; Fined \$2.
"Stubby" McFarland was fined \$2 and costs of \$6.10 in police court today when he pleaded guilty to a charge of having entered into an affray Saturday.

Charles Ford of Burlington, Kan., who has been visiting his mother, Mrs. B. G. Ford and family, left for his home yesterday morning.

Mrs. William Messbarger Dies as She Steps on Porch of New Home in This City.

Just as she stepped on the porch of her new home at 604 South Fillmore street into which the family was moving this morning, Mrs. William Messbarger dropped dead.

In company with one of her sons, Mrs. Messbarger drove from the old farm place near Burlington Junction to Maryville this morning reaching their home in Maryville at 11 o'clock. She was feeling in as good health as usual. She stepped out of the buggy, walked to the house and fell just as she gained the porch, dying in a few minutes.

Mrs. Messbarger was 67 years old. Her husband died in May of this year at their farm near Burlington Junction.

She is survived by eight children. They are Henry Messbarger of Ravenwood, Mrs. Henry Boedecker of Parwell, Mrs. Roy Lyde of Burlington Junction and Bert, John, Roy, James and Fred, living at home.

A brother of Mrs. Messbarger, William Sherr, of Kansas was accidentally drowned a few weeks after the death of her husband.

The body of Mrs. Messbarger was taken to the home of Mr. and Mrs. James Tobin, 133 South Mulberry street, the parents of Mrs. Henry Messbarger where it will remain until the funeral. No funeral arrangements have yet been made.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. This proposition has so much truth in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address P. J. CHENEY & CO., Toledo, O. Mrs. Lon Craig of Bolckow Commits Suicide Yesterday—Mind Affected by Long Illness.

In a fit of mental aberration, Mrs. Lon Craig, the wife of Lon Craig, a well known farmer, living three miles east of Bolckow, committed suicide yesterday afternoon by drowning herself in a pond on the home farm.

Mrs. Craig had been in a frail state of health for several years and her mind had been affected by her illness.

Shortly after noon yesterday, Mrs. Craig went to her room to take a nap. About four o'clock one of her daughters went to her mother's room and found she was not there. After a search the youngest daughter found the body in the pond in the meadow a short distance from the house. The water was very shallow and the color of Mrs. Craig's dress was easily seen from the bank.

Mrs. Craig was very well known in this city where she and her family frequently visited. Mr. Craig is a cousin of Senator Anderson Craig and an uncle of W. C. Frank and James D. Frank of this city.

The funeral services will be held at the family home at two o'clock tomorrow afternoon. Mrs. Craig is survived by her husband and six children. The children are Walter W., Frank Ulie, June and the Misses Mamie and Lurinda Craig, all living at Bolckow.

Stanberry and Federals Plan a Four-Game Series Here With St. Joseph Drummers Soccer.

A four-game series with the St. Joseph Drummers, the cellar team of the Western league, to be held at the Normal grounds here next month, is planned jointly by the managers of the local Federal base ball team and that of the Stanberry Red Sox.

The plan is for the Red Sox to play the Drummers here two days, then let the Federals take them out for a double period. These are only tentative arrangements, but it is believed that such a proposition would be a great drawing card here.

The Federals will be strengthened soon by Goldie Rapp, the third sacker who recently fled to Waterloo, Ia., to join the Central association team, besides Richardson and Willey, the present battery, and perhaps one or two others gotten especially for that occasion.

The Federals will not be able to engage in such a series before the middle of next month, however, as they go to Lenox, Ia., September 8 and 9 to play two games with the first team of Creston, as an attraction for the Lenox annual picnic. Then they play the Stanberry team here September 12.

Society Elects Officers.

Mrs. I. W. Nixon was elected president of the Women's Foreign Missionary society of the First Methodist church at the annual election held Thursday afternoon at the home of Mrs. J. D. Ford. The meeting was set a week in advance of the regular time. The other officers chosen were Mrs. O. C. Hanna, vice president; Mrs. Milton

Rittenour, corresponding secretary; Mrs. M. D. Kemp, recording secretary; Mrs. W. O. Garrett, treasurer. The program given, after the devotional exercises led by Mrs. W. B. Christy, consisted of a reading, "The Third Prayer," by Mrs. J. C. Allender, and a talk on "The Pre-Eminent Need," by Mrs. O. C. Hanna, in which the need emphasized was that of more prayer for the great work of saving the world. Miss Daisy Wood, who has recently returned from a several years' work in the Girls' Mission school of Calcutta, India, gave a very interesting talk concerning her work there and the pleasure she was afforded in seeing many of her pupils start in Christian life. Following the program, the hostess was assisted by Mrs. C. P. Anderson and Mrs. J. A. Wray in serving a luncheon. Twenty-seven members were present and the visitors were Mrs. Henry Eckert, Mrs. G. LIVESTOCK MARKETS SLUMP

Cattle, Hogs and Sheep Fell 10 to 25 Cents Lower in Kansas City—Improves.

Kansas City, August 30.—The cattle market was slow last week, with a total decline of 15 to 25 cents. There was some signs of improvement after Wednesday, killers running short of supplies, as receipts for the week were moderate. Today the run is 24,000 head, the largest of the year, and of reasonable volume.

The demand shows equal expansion on most kinds, corn-fed cattle selling around steady, including yearlings and heifers, and stock cattle strong and active, many country buyers here. Choice feeders would sell steady, few here, medium feeders, and medium grass killers 10 to 15c lower, cows 10c lower.

Prime corn-fed steers are worth \$9.40 to \$9.85, medium fed natives \$8.25 to \$9.25, Kansas grass steers weighing 1,200 to 1,300 pounds mostly at \$7.75 to \$8.35, choice wintered steers up to \$8.75, light steers, \$7.20 to \$7.60. Plain feeders are selling at \$6.75 to \$7.65, but choice ones would bring \$8 to \$8.35.

In the quarantine division 66 cars arrived, and sold actively at 10c lower prices, the supply largely mixed stock, few steers at \$7.10, light steers \$5.75 to \$6.50, cows, \$5.00 to \$5.60, veal calves up to \$10.25.

At this season there is always a great latent demand for cattle which comes to the surface with the first big run of cattle, a fact which prevents any material decline. This demand was evident today to sellers' benefit.

In addition, a new Chicago order buying concern, which does a big business buying feeders and stockers for states east, opened offices here today, and injected considerable life to the trade.

Hogs sold 5 to 10c lower, receipts 8,500 head. Top price was \$7.65, bulk of sales \$6.80 to \$7.60. Receipts included several shipments of heavy hogs from north central Nebraska, from shippers who say they are getting 40 to 50 cents more here than in Omaha, mostly at \$6.90 to \$7.20.

Demand for fresh pork and bacon is extraordinary, and this trade was sufficient last week, in conjunction with light receipts, to advance prices 50 to 60 cents.

Sheep and lambs sold weak to 25c lower today, receipts 18,000. Some medium Arizona fat lambs sold at \$8.60 early, almost a steady price, and best lambs sold around \$9, considerably lower, fat yearlings \$7. Feeders held about steady, feeding lambs around \$8.20, breeding ewes up to \$6.75, feeding ewes, good for one more lamb, at \$5 to \$5.50. There will be plenty of feeding and breeding stock here this week.

EAT FRIED FOWL TOMORROW

Local Poultry Breeders Will Partake of Toothsome Delicacy on Fair Grounds—At Sheridan, Too.

Tomorrow is Fried Chicken day in Missouri, and this includes Nodaway county. The Northwest Missouri Poultry association, with headquarters here, has arranged for those interested in the poultry industry in Nodaway county, to appear at the fair grounds tomorrow noon to partake of fried fowl, along with the local members of the association.

The picnicers will also spend some time following the luncheon in a view of the poultry exhibits at the fair and of the general fair displays in floral hall and elsewhere.

Sheridan also is planning a Fried Chicken day tomorrow. The Boosters there have arranged to have Nels Darling give a lecture to them on that occasion.

UNITED STATES CASH NOW SETTING WORLD'S STANDARD

Eagle Is the Ruler as Exchange Falls to Lowest Level.

New York.—The American dollar is ruling the world today with an iron grip. Pounds sterling, francs, lire, and virtually all foreign exchange have gone down to new depths in a torrent of bills that poured into the exchange markets from American manufacturers seeking pay for the big war contracts of munitions and other supplies purchased here by the warring nations of Europe.

Coincident with the startling decline in exchange rates comes the assertion from an unimpeachable source that every contract made by the American manufacturers for supplies sent abroad called for payment in American dollars and not English pounds sterling, which heretofore have been the standard of finance the world over. The immense losses, therefore, due to the decline in foreign exchange rates will be borne by the foreign buyers and will not be sustained by the American manufacturers.

What to do to remedy the situation engages the attention of bankers with international connections. It was decided to do nothing, chiefly because the remedy lay across the ocean with the foreign buyers.

It was generally believed that the present abnormal situation would not be permitted to continue long. The obvious remedy seemed to be to sell American securities held abroad. Establishment here of a big foreign credit, estimated conservatively at \$500,000,000, was thought to be absolutely necessary if exchange rates are to be restored to anything like normal figures.

The amount of war contracts on which full or nearly full payments will be due on or before Oct. 1, approximately \$400,000,000 to \$500,000,000. This is in addition to the huge total of more than \$1,000,000,000 owed by Europe to the United States at the close of the fiscal year, June 30.

An optimistic feature of the situation was the general belief that a second large shipment of gold is on its way to New York.

NO CHILDREN IN THE MINES.

California Eliminates Children Under Sixteen From Mines and Quarries.

Among the new limits established by the California child labor law of 1915 is a sixteen year limit for mines and quarries. California has mining products valued at more than \$63,000,000, according to the 1910 census, but she has never before set an age limit for the children who might be employed in their production.

Now that a sixteen year limit has been adopted nor fourteen or fifteen year old trapper boys will be found among the victims of an explosion, as was the case in West Virginia last year, nor will their thoughtlessness be the cause of disasters in which others are killed, as it sometimes is where boys under sixteen are permitted to work in mines.

Mining has the highest fatal accident rate of any industry, but quarrying is not far behind. A signal boy was crushed to death by a falling stone in

Photo by National Child Labor Committee. BOYS WHO REMOVE SLATE FROM COAL IN THE MOUNTAINS.

a Maine quarry last fall. The occupation of signal boy is not generally supposed to be dangerous, but it is evident from this that any occupation in a quarry is unsafe for young boys and that a sixteen year limit is imperative. A number of mining states having both mines and quarries have adopted a sixteen year limit for mines only, forgetting that the dangers from falling stone and blasting make the presence of young boys in quarries a risk to be avoided.

California's action is regarded as particularly significant by the National Child Labor Committee in view of the "law of recurrence" which Dr. Felix Adler spoke about at the Eleventh Annual Conference on Child Labor. Dr. Adler said that the evils of child labor had followed industrial development from England to New York and Massachusetts, from there to the south and from the south would go to the west unless the west prevented it by enacting child labor laws in advance. Child labor in the mines will not "recur" in California.

FORESTALLING CHILD LABOR.

By FELIX ADLER.

The question is sometimes asked: "Why have a National Child Labor Committee? Why not have state committees and let these co-operate?" One sufficient answer to this is that the appearance of child labor in those states in which there is as yet little or no manufacturing must be forestalled, and a national committee is needed to this end.

Anti-child labor laws must pre-empt the ground before a greedy industrialism can stretch forth its hands to grasp the child. The law of periodicity, the law of recurrence, that has hitherto obtained in the matter of child labor must be defeated. England began, Massachusetts, Pennsylvania, New York followed suit. The same inconceivable outrages on human feelings repeat themselves again and again. Whenever a predominantly agricultural community develops into an industrial state the horrors exposed by Lord Shaftesbury tend to recur.

The warning lessons of the past are often writ in water. Thus the industrial states of the north simply stepped into the foul footsteps of early English capitalism, and the south, as soon as it became industrial, hastened to repeat the same fearful story. The great states of the Pacific and the west must thwart that horrible law and make it impossible that the same conditions should there grow up. That is the one main object of a national committee.

THE CHILDREN'S CRY.

I said: "I am poor this year, and the war is hard. I cannot give to the things I love to do. So this must go, and this, in the great discard."

And the children must suffer, too. I am much afraid. But I didn't know how they cry in the night. And pick up their little hands. How they cry with the voice of your heart's delight. And the faces your dead have worn.

There are boys that work all night in the crystal dust. There are girls who spin all day at the whirling wheels. And how shall I face my dead with my broken trust? When the "Inasmuch as ye did it not" reveals?

I couldn't bear their cry in the night. The clutch of their little hands. I must do my best with the widow's mite To loosen the iron bands.

RESCUE PATIENT IN CHIMNEY

Sick Man Saved After Desperate Struggle by Hospital Attendants.

Philadelphia.—Wedged halfway down the chimney of the four story building used as a men's medical ward, Bené Strun, a patient in the Philadelphia hospital, narrowly escaped suffocation while hospital attendants labored desperately to extricate him from the perilous position.

What prompted Strun to get in the chimney is a mystery to the hospital physicians unless his mind became temporarily unbalanced and he attempted to escape. Strun went on the roof of the medical ward unobserved and climbed into the chimney. Soon afterward other attendants in the ward reported to the attendants that they heard cries coming from the roof.

Armed with picks, some of the attendants began to open the chimney close to where the imprisoned man was suspended, while others hurried to the roof and attempted to reach him by stretching a rope down the mouth of the flue. Just at the time when the workers below had almost succeeded in making an opening into the chimney those on the roof managed to get a rope to Strun.

He succeeded in getting both arms free and after he had got a good grasp on the rope was hauled to the top.

AMERICANS IN CANADIAN ARMY

Two Thousand Serving, Says General Hughes—More Than 100 Claim.

London.—There are no fewer than 2,000 Americans in the ranks of the Canadian military contingent, said Major General Sam Hughes, Canadian minister of militia, at a meeting of Americans held here.

"I have already written letters of gratitude and sympathy," said General Hughes, "to mothers of more than 100 American boys who have fallen while fighting in Flanders alongside Canadian comrades. More than 2,000 are listed, and we could have many more if we wished. Any number of West Pointers offered their services as officers, and some are now with us."

METEOR'S DASH WAS A BRILLIANT EXPLOIT

Germans, Hemmed In, Escaped on a Norse Merchantman.

Berlin.—The story of a naval exploit which matches in daring the spectacular ravings of the Emden, the Prince Eitel and other German commerce destroyers was told when the details of the sinking of the German auxiliary Meteor were received.

After an adventurous dash in the North sea the captain of the Meteor, hemmed in by enemy patrol boats, succeeded in escaping with his crew and British prisoners aboard a commandeered merchant craft after he blew up his own vessel.

"According to private reports," says a news agency, "the Meteor, a converted merchant steamer, succeeded in breaking through the lines of British patrol ships, 500 miles from her base. She laid a large number of mines and destroyed British merchant ships."

Finally she encountered the British cruiser Ramsey, which she sank after a splendid maneuver. The captain of the Meteor, whose crew consisted of about twenty-five men, saved and captured forty-three men from the Ramsey. About sixty others were drowned. "British battle cruisers, notified by wireless, pursued the Meteor. After the Meteor had burned the Danish merchantman Jason, with a contraband cargo aboard, the little German craft, facing four British cruisers, stopped a Norwegian steamer, transferred the captured British contraband crew and also put the Danish sailors on board. This boat escaped from her pursuers with the captured Englishmen. The Meteor was sunk by exploding her mines."

HER HAIR SAVED GIRL'S LIFE.

Acts as Cushion and Prevents Fractured Skull in Auto Accident.

Philadelphia.—Thrown from her brother's automobile when it was struck by another machine, the driver of which was endeavoring to avoid hitting a child, Miss Ella Tolle, twenty years old, received severe lacerations of the scalp and probably internal injuries.

Physicians say that it was only her wealth of hair that saved her from a fractured skull. The other car was driven by Gustav Eberle of Germantown.

Rewards Faithful Horse.

Riverhead, N. Y.—Dr. George P. Griffing of Greenpoint, Brooklyn and South Jamaica, N. Y., created a trust fund of \$5,000 in his will, filed for probate here, with the income from which his "faithful old horse, Frank," is to be maintained in comfort for the rest of his life.

Device Against Torpedoes.

Paris.—A device, invented by the Italian engineer, Quarnal, which makes it possible to drive torpedoes out of their course and explode them, has satisfied tests, says a dispatch from Rome, and arrangements are being made to supply the device to the allied fleets.

MRS. TRULLINGER IS WELL AND HAPPY

Mrs. J. B. Trullinger of Norborne, Mo., was ill for months with derangements of the digestive tract. She suffered terrible pain and was seldom able to be about.

She took Mayr's Wonderful Remedy with results that most happily surprised her and astonished her physician.

Mrs. Trullinger lives on rural route 1, out of Norborne, and leads an active country life. She writes:

"I take great pleasure in telling you what Mayr's Wonderful Remedy has done for me. When I wrote you last March I was hardly able to be up at all. I endured awful suffering. I would get so bad I would become unconscious, and the nauseating spells I had would leave me as weak as if I had a long spell of sickness nearly as bad as typhoid."

"Words cannot express the appreciation I have for your medicine. I am now able to work all day long. All this summer and fall I have felt just fine, gaining in strength and flesh."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.
